ARACON 2025

EVENT DETAILS

Date: 23-24 October 2025
Venue: Hilton Rotterdam Hotel, Netherlands
Theme: Keeping Agile: Future Proofing the Marine Fuel Supply Chain
Format: Two-day conference plus exhibition and networking.

ARACON 2025 will focus on making the right strategic choices so that marine fuel companies can adapt efficiently and effectively to new and upcoming commercial, operational and regulatory imperatives.

Speakers in Rotterdam will examine each element of the marine fuel supply chain - including fuel quality (biofuels provenance and certification), fuel availability and pricing, and supply trends in the ARA region - to see how they are adapting to change. As alternative (and more expensive) marine fuels increasingly enter the mix, discussions will cover credit lines and credit risk, and whether higher fuel price exposure may prompt consolidation among smaller and mid-sized bunker players.
